

-54- (Amended)

1           The method of Claim 109 wherein the herbicide  
2           is selected from the group consisting of acetanilides,  
3           acetamides, acetolactate synthase inhibitors, isoxazoles,  
4           diketonitriles,     triketonitriles     dinitroanilines,  
5           triazines, substituted ureas, ethofumerates, isoxafen,  
6           oxodiazon, dithiopyr and combinations thereof.

-55- (Amended)

1           The method of Claim 109 wherein the composition  
2           further comprises a safener.

✓  
Add the following new Claim 109.

-109- (New)

Sub  
E 3  
3           A method for applying one or more postemergence  
herbicides for controlling weeds to a crop plant without  
injuring the crop plant, the steps comprising:

5           (a) providing a composition comprising at least  
6           one herbicide admixed with a repellent adjuvant wherein  
7           the repellent adjuvant modifies surface properties of the  
8           formulation thereby reducing retention of the formulation  
9           on foliage of crop plants; and

10          (b) applying the formulation to the plants  
11          wherein the formulation bounces off the foliage onto the  
12          soil wherein the formulation controls the weeds without  
injuring the crop plant.
